

Health Insurance Policy

Do not purchase special health insurance before you come to Ohio State. The University requires students to purchase the University student health insurance. You are automatically included in the Student Health Insurance Program and \$432 is added to your fees.

The only exceptions are for students sponsored by their government or major international organizations, and for students who have insurance through a U.S.-based employer. Students with these exceptions need to provide proof of insurance when they arrive via a health insurance card or a letter from their company or government sponsor stating their coverage for that particular student.
