

Housing Choices

Talk to several (at least 3) American undergraduates about what factors affect Americans decisions about where they live while attending OSU.

What specific factors influenced their decisions about where to live? Price, proximity to campus, safety, “party atmosphere”, quiet neighborhood, landlord or rental company, parking, or any other factors that they can think of?

What’s the most important factor? How would they rank the others?

Do they feel the campus area is safe enough, clean enough, or should there be some changes and if so, who should implement them?
