

Community Contact - Semesters or Quarters

The university is considering switching from quarters to semesters. Ask at least 1 graduate student and 1 undergraduate student about this:

- Do you think the quarter system has advantages? What are they?

- Do you think the semester system has advantages/disadvantages? What are they?

- Do you support the switch to semesters? Why or why not?

- What will the switch mean for you, the students in general, and the university, in terms of problems, improvements, status, or whatever?

- Do you think it will happen? If so, when?
