Student Behavior - the Recent Riots

Ask several undergraduates about the recent rioting on campus.

- How representative of the student body are the rioters?

How do most students feel about the riots? Do they support the students who participate, or the police, or neither?

- What makes people riot? Is it a national trend or phenomenon, or is it especially caused by something about OSU? What attitude or motivation or dissatisfaction (or other characteristics) does it indicate in students?

-What should the University administration do, if anything, to stop the rioting and why? Should they expel the rioters, or organize "safe events", or offer counseling, for example?

In your opinion, can anything be done to stop the rioting? Why or why not? What would you like to see happen as a result of the rioting, if anything?
