

Spoken English Program  
English 104 (Arranged)

Individual Speaking Practice

Assignment

Once a week you will meet with your teacher and respond to a question. You will talk about five minutes. Your teacher will respond to your answers.

Purpose

These are a few of the ways the fluency practice can help your spoken English.

1. It provides topics for you to practice on a range of subjects.
2. It gives your teacher a chance to hear spontaneous speech on both academic and general topics.
3. You can (and should) listen to your tape. It will help you recognize and learn to correct errors in your own speech -- pronunciation, hesitations, and especially grammatical errors that you might not know you have.
